Very very fun. Easy to learn. Highly playable. Historic accuracy.
These are our guiding principles.

Unique grid system enforces linear reality of Napoleonic warfare and accelerates play time. Grid system regulates movement, terrain, and firing while maintaining the flavor of a traditional miniature game. Battalion level. Order driven, easy to learn, difficult to master. Most games can be completed in 1.5 hours or less while retaining the true flavor of Napoleonic engagements! The basic command is a brigade but experienced players can easily control much larger forces. Flexible 60:1 system. Adaptable to your current basing system. Use any standard size miniatures from 6mm - 28mm.
